The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight seen or "raw" (uncertified) but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already include consideration of the sight seen market, may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the loading adjustments of the high bidder, nor will he necessarily subtract to Bids where are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a commission above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANAC5, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices, and "gem, full steps" rolls are worth more than listed prices, particularly the pre-1941 issues. In the Jefferson series, some of the rolls in the late 50's tend to be dark; these bring lower prices. "gem, full steps" rolls, when available, bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices, particularly the pre-1941 issues. Washington rolls, "dull or "put together" being lower prices. "Gem, full steps" Washington rolls, particularly the S-mint issues, are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the [illegible]

The virtue of toned coins
by Mark Salzberg
While grading is perhaps the most hotly debated topic in numismatics today, there is another issue that can lead to much discussion: you and I know. This is the subject of toning on coins. Every few years someone writes an article or letter to the editor to warn collectors away from toned coins. This is usually answered by numerous responses in defense of coins toned naturally. Even so, the long-term effect of the negative articles has been to plant a seed of doubt in the minds of many dealers and collectors. Some, it is to buy toned coins, or do so reluctantly, as a policy. I believe is unjustified.
Most metals react with the environment. The resulting veil of color, which is used for coins acquire toning over time as atoms at the coin's surface interact with the environment. The resulting veil refracts light according to its variable thickness producing one or more colors within the visible light spectrum. These may tint the entire coin evenly or produce intermittent blushes, appears in concentric circles of distinctive colors, emanating from the coin's border and reaching toward its center. While toning is not always so finely drawn, in many instances its beauty can be simply breathtaking.
The late Dr. William Sheldon, author of the book Penny Whimsy, knew well the appeal of natural toning. He believed early cents, Old copper, like beauty, appears to possess a certain intrinsic quality or charm which for many people is irresistible. Copper seems to possess an almost living warmth and a personality not encountered in any other metal. You see the rich shades of green, red, brown, yellow, and even deep ebony, together with blendings of these and elsewhere matched in nature save perhaps in autumn leaves.
While Sheldon was speaking only of copper coins, silver, in a lesser extent, gold may likewise acquire attractive toning over time. Some coins tone blotchy or spotted but there are plenty examples of superb toning in the marketplace and such coins are eagerly sought by knowledgeable and expert buyers.
Even so, there is a trend in the U.S. coin market favoring untoned or "white" coins over those with rich coloration. To me, this doesn't make sense.
The fact that it's natural for old coins, particularly silver pieces to acquire degrees and shades of color is one of the most charming qualities of antique coins that distinguishes them from more recent issues. In other areas of collectibles the value of natural toning, or patina, is widely understood. In fact, experts in antique furniture frequently extol the virtue of original patina, which often adds to the piece's value. I even collectors of toy trains or mechanical banks will agree that the original surfaces of a collectible item, no matter what its condition, are more desirable than a skilled attempts to replicate its appearance when new.
It's not surprising that those new to coin collecting consider "shiny" more appealing than tarnished. I suppose we all buffed our first coins before putting them in folders until experience taught us a lesson. So why do more experienced collectors and dealers still resist toned coins? I believe it's because many may not be able to tell original toning from artificial. This is not an irrational fear, since some people do apply toning to conceal harsh cleaning, hairline scratches or repairs. For those who fear unknowingly acquiring these deceptive pieces convenient answer is to buy certified coins. While determining the original toning is subjective, experts like those on NGC's grading team can spot altered coins with a high degree of accuracy. When it comes to doctored coins we've seen nearly everything and that has only reinforced our appreciation of nice original pieces.
While a very dark or otherwise unattractively toned coin may actually be improved by a skilled chemical dipping, many pieces are harmed through improper dipping by someone who lacks either the knowledge or the motivation to do it properly. Such carelessness can lead to a coin that acquires unnatural reflectivity, staining, or a loss of luster. Leaving the coin with a dull, lifeless look. Certification services rarely come down hard on such

"Just a quick note to compliment you on the excellent article as submitted to CDN. As a coin dealer I am viewed as a somewhat biased individual when it comes to toning. However, it's different when the head of a grading service shares his views. While most experienced dealers or collectors appreciate the virtues of beautifully toned coins, many novices are stymied by the lack of information available in print. Your article does a service to original coins and to the industry in general.

"Every day at least one customer asks my opinion of the grading services. As you know, I am brutally up-front about everything life throws at us. In short, I rate the grading services on an "A to F scale". I give NGC a Rainbow toned A!

"I consider NGC to be the most accountable grading firm. You stand behind your product, you freely and publicly admit mistakes and you deal with issues that others shun. Simply stated, NGC represents the industry's leading grading service. Just keep an open mind and maintain your vision."

Single copy price $4.00 Vol. XXXVIII No. 36 September 8, 2000 *...a Friday morning report on the Coin Market*

RARE DATE LIBERTY GOLD VOLATILE
UNDERVALUED OR OVERPRICED?

The Market in Depth

Today's demand is robust for specific rare coins. We see that dealers are willing to discount any coin that has been rather stagnant in their inventory. When the coin is particularly rare or scarce, the discount needs to be significant enough to complete its sale. The rare date Gold market is one of those markets that is very sensitive towards quality. Serious collectors want coins that have eye appeal and rarity. If the coin is coming up just short of making the grade on the quality side, it is often passed by prospective buyers. If the coin needs to be sold immediately then a substantial discount is the necessary measure a dealer needs to exercise in order to complete the transaction. These discounts take place in the form of private treaty or via auction. This was the case for several rare dated Liberty Gold from the $5, $10 and $20 denominations in recent weeks.

Rare date Gold often trades between dealers before arriving in the hands of the end user. Still, a coin may need to be sold because it is not receiving adequate offers. This coin is destined to become a candidate for the public auction. We have noticed that there have been some discounting taking place in this forum. Not all of these coins are lackluster with several being above average for the grade. Still, the auction avenue allows them to be presented to a greater audience of potential buyers. Pictures and catalog descriptions often fill in some of the questions that buyers need to know and deem necessary to make prudent decisions. Good deals often take place at auction as undervalued and unappreciated dates trade during the late hours of a sale. Those dealers who have done their homework and put in the time may be able to capitalize on the value at hand. We also point out that high quality coins can receive even greater amounts at auction than initially expected.

The minus signs appearing in the *CDN Quarterly III* may be looked at as an opportunity by some. The chance to buy a scarce date that is undervalued or under appreciated may be present. Others feel several rare dates were run up too far and too fast. In any event, future dealer's Bids and sales will determine which direction we go from here.

This Week's Market

MERCURY DIMES: Downward adjustments are present in MS65 FB for a few slightly better dates. These minor declines in Bid result from discounting. When inventory becomes stale, a drop in price is the quick remedy in order to move coins.

WALKING LIBERTY HALVES: Walking Liberty Half Dollars are in a similar situation as mentioned above. Several slightly better than common dates have been offered on the market in MS65. The coins affected are dated after 1938. A couple positive adjustments are noted, with Bid increasing for both the 1935 D and 1936 S.

DOLLARS: Morgan Dollars have had their share of volatility this year, and nothing has changed this week. Several issues are up, although only slightly. Only a few semi better dates are off in grades MS63 thru MS65. Peace Dollars are showing some slight declines in AU50.

PROOF SETS AND MINT SETS: We have said it before, this area is HOT. Dealers are having trouble buying enough sets at the current levels. Hence the plus signs week after week. Mint Sets are in the same boat with very strong demand.

COMMEMORATIVES: Silver Commemoratives remain unchanged from the prior week. Most Uncirculated issues and PDS sets are in need at current levels. Gold Commems continue solid with several dealers promoting this area. Modern Silver and Gold Commemoratives are relatively quiet with only a couple of increases in Bid. The majority of interest is still focused on the "Matte Sets". The Botanic Garden set containing the Matte 1997 Jefferson Nickel is now Bid $200 with quantities needed. The RFK/JFK set containing the Matte 1998 Kennedy Half Dollar is also up, showing a new higher Bid of $325.

TYPE: The Proof Type market remains healthy. Widespread support is present with a couple higher Bids to report this week. Flying Eagles Cents of Proof-65 or better quality are sought after. Higher Bids have been placed in hopes of acquiring these Cents. These early Small Cents along with the 1859 Indian Type are also Bid higher in Uncirculated condition. Additional increases in Uncirculated Type are found for Barber Dimes, Barber Quarters and Barber Half Dollars.

GOLD: Gold Type continues to be quiet, with only a few declines in Bid. After months of declining prices, most issues now have buyers at or near current levels. Type 3 $20 Liberty even have an increase in MS65 - now Bid at $1,700.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell sight seen or "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks one can find at any point in time at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight unseen market, which already include consideration of raw sight seen coins. Bids for a sight seen coin may be higher or lower than for a sight unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding activity of the high bidder, but will be averaging influenced by Buys reported higher or Sells which are lower than current Bid Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to get a significantly better price for buying coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be too dark as to hide any problems) will have minor bagmarks and may show weakness of strike. Above average eye-appeal.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: With exceptional characteristics as the corresponding Mint State Morgan, but with the additional quality of deep mirror surfaces on both sides.

GOLD COMMEMS IN COMMAND
STRONG FALL ACTIVITY ANTICIPATED

The Market in Depth

One quick way to measure the current rare coin market is to look at the activity taking place in Morgan Dollars. Many collectors, regardless of their specialties have had a few Morgans in their collection at one time or another. Collectors returning to the hobby after a long hiatus usually look to up-grade or add to their Dollar sets. Sometimes, just buying an 1893-S provides enough satisfaction. Dealers tell us that many collectors are currently working on date and Mint sets of Dollars. Decisions are necessary to establish the ground rules as there are many ways to collect the famed cartwheels. Those collectors that have an interest in our western history may choose to collect Carson City and San Francisco Mint Morgans. Those having an affinity with the southern part of our country many enjoy targeting the New Orleans Mint Dollars. Most of the desirable key and semi-key dates were struck at these three Mints.

Currently, we see that demand is strong for select Circulated Morgan Dollars. Dealers are looking for no-problem coins at each grade level for their customers. Circulated sets are affordable and enjoyable for collectors. The degree of difficulty is such that collectors feel comfortable knowing that they can complete a set in a reasonable amount of time without breaking into their savings account. Of course, AU examples are much more challenging than a VG set.

The current strength in Circulated coins goes far beyond Morgan Dollars. We see that strong demand is chasing Good and better Barber Dimes, Quarters and Halves. The Barber series has always been a popular one with collectors. The challenge of completing Circ. sets of these series is known by knowledgeable collectors. Dealers are always looking to buy solid VF and XF common dates and keys when they become available. Indian Cents, Lincoln Cents, Buffalo Nickels and Mercury Dimes are also receiving strong interest. Look out! Gold Commems continue to surge. High grade issues are just not readily available to satisfy the current demand. Will the increased Bids release examples from strong hands?

Overall, market demand is still looking quite good as we begin the usually active Fall season. Dealers are actively working on filling want lists and stocking their inventories with collector coins. Participation in the active Fall auction schedule will supply those special coins that are so elusive.

This Week's Market

CENTS THRU HALVES: Look at the Washington Quarter rolls. Early dates from 1944 thru 1957 are realizing strong Bids. Original rolls that are especially nice receive stronger Bids. Increases are also taking place for select Jefferson Nickels, Roosevelt Dimes, Franklin and Kennedy Half Dollars.

MERCURY DIMES: Mercury Dimes are quiet. Dealers are looking for specific dates and waiting for an opportunity to buy. Common dates are regularly trading at current levels.

WALKING LIBERTY HALVES: The Walking Liberty Half Dollar series is under some pressure. We see several of the latter dates of the series weakening. The gem grade of MS65 is being affected. Still, a couple of plus signs do appear this week. Dealers are hopeful that upcoming public auctions will provide the necessary coins.

DOLLARS: Common date, pre-1921 Morgans increased in Fine, Very Fine, MS65 and MS66. Increases are also seen for 1882-CC, 1883-CC, 1885-CC, 1889 and 1892 in grades from VG and better. Peace Dollars have some interest in MS65 and MS67 common dates. Morgan and Peace Dollar rolls have strong support at current levels. Circulated rolls of Barber coins, Walking Liberty Halves and VF and better Morgan Dollars increased.

PROOF SETS AND MINT SETS: Demand for early Proof Sets and Mint Sets is very strong. Dealers are easily willing to pay the current prices for these sets. However, they are willing to pay even more for sets that are especially attractive, including originally toned sets. Some Proof Sets are beginning to be discounted as they have reached very strong Bid levels. Mint Sets are steady at current levels with dealers still willing to buy quantities.

COMMEMORATIVES: Silver Commems are generally quiet this week with a couple of minus signs. However, demand for many of these dates at the current levels is evident. Gold Commems is where the action is this week. Plus signs dominate the chart for many dates in MS65 and MS66 condition. The lack of coins available continue to be the problem with many Bids going unfulfilled.

TYPE: After some discounting in previous weeks the Mint State and Proof Type markets are steady. Dealers are looking for Type, but willing to wait for a special specimen to come along. Circulated Type is also steady at current levels.

GOLD: Gold Type is still lethargic. It appears that Bids are not able to force prices higher, except for the slight increase in MS63 Type III $20 Libs and $20 Saints. It seems that dealers are waiting for something to happen, but no one is willing to make the first move.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, representing all parties in transactions and offers of coins sight-seen, certified, but the grading **MUST ADHERE** to the current leading standard. Prices reported here are from the highest legitimate Bid level to lowest legitimate Ask level nationally. They are wholesale prices sight-seen, what any particular dealer might offer to buy or sell that coin. Bids reported are for actuals in the certified sight unseen market, which already includes normal grade or technical discounts. Bids for a sight-unseen coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the local dealers. Ask will sometimes be higher or lower, which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this publication are from Dealer to Dealer transactional data. You should always expect to pay more than these prices in a retail transaction; you may also sell them to a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates mentioned. In the [illegible] section, quoted at [illegible] values in the set, such as "Full Steps" rolls, [illegible] the Jefferson series, some of the rolls in the late '50's tend to be dark—those being lower prices, "gem, full steps" rolls [illegible] higher prices. In the Roosevelt issues, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" being lower prices, "gem, full bands" rolls—particularly the S-mint issues—are worth more than listed prices. MS-68 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are on the 3-4M.

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XXXVIII No. 38 September 22, 2000 *. . .a Friday morning report on the Coin Market*

EYE APPEAL MAKES PRICE APPEALING
BETTER DATE WALKERS SOUGHT-AFTER

The Market in Depth

Interest for rare coins is very strong. Dealers report that they have a stronger customer base that is very knowledgeable about their specific area of interest. They know what they want and are willing to **wait** for the right coin to come their way. Dealers are diligently trying to buy key and semi-key dates for their customers. Often, this means Bidding at public auction. We see many tough dates cataloged in large sales on a regular basis. These coins get wide exposure and good competition from these sales. This helps the rare coin realize a price commensurate with its rarity and condition.

Segments of the market are gaining strength. Demand for Walking Liberty Half Dollars is very selective. This has been true throughout the 2000 calendar year. Dealers do have several customers working on sets of halves in various conditions. Naturally, the early Denver and San Francisco Mint Walkers receive very strong demand because of their rarity. In addition, some Philadelphia Mint issues are also on many want lists. More than the usual weekly number of plus signs appear in our Walker chart. When attractive, no-problem and scarce Walkers become available, dealers are quick to buy them. About Uncirculated and Mint State 60 examples are high on most collector/investor want lists. The AU and MS60 grades make a very attractive set when completed while still offering a substantial bit of challenge.

Attractive coins are needed in quantity. Dealers have many potential buyers for coins that enjoy the status of **premium quality** for the grade. Dealers have little difficulty in finalizing a sale of any coin that is in the upper range for its particular grade level. Eye appeal can go a long way in increasing the desirability of a rare coin. Dealers know that attractive and original toned coins have a similar affect. These coins are in demand with dealers willing to pay handsomely above current levels to secure them for their customers.

Early American History Auctions of La Jolla, CA will conduct a Mail Bid Auction October 14. A few of the coin highlights include an XF45 1658 Maryland "Lord Baltimore" Sixpence Colonial; an XF40 1793 Chain AMERICA cent, S-3; an MS65 1811 Capped Bust Half; and, an AU55 1855 $50 Wass, Molitor & Co., Territorial Gold coin.

This Week's Market

MERCURY DIMES: Demand for Mercury Dimes is steady at current levels. We see some interest translating into plus signs. However, this is taking place at the end of the series.

WALKING LIBERTY HALVES: Dealers are looking for select dates of Walking Liberty Half Dollars for their customers. Increases are especially evident for the early dates from 1916 thru 1936. The MS60 grade category appears to receive the bulk of the activity.

DOLLARS: Activity is certainly the word for the Morgan Dollar series. Plus signs are taking place for several tough semi-key dates. Increases are seen for the popular and desirable dates including 1889-CC, 1892-CC, 1893, 1893-CC, 1894, 1894-O, 1894-S, 1896-O, 1897-O and 1901. The need is strongest for MS60 examples but other grades are also given consideration. Peace Dollars are quiet at current levels. BU American Silver Eagles are weaker, several dates have declined.

PROOF SETS AND MINT SETS: Proof Sets and Mint Sets are mixed this week. While we still see strong demand for many of the early Proof and 1999 sets, some discounting is taking place. The active pace of the Proof Set and Mint Set markets has not diminished. Silver Mint Sets from 1959 thru 1963 are increasing while several sets throughout the chart are being discounted. Silver Proof Sets dated 2000 go on sale Sept. 25th.

COMMEMORATIVES: The Silver and Gold Commemorative charts speak for themselves. There is little change this week in each of these areas. Still, we know that demand is strong for many of these dates in MS64 and better condition. Modern Commems are finding buyers for select Olympic Silver Dollars and Civil War issues. All of the Matte Sets are up again and are needed in quantity.

TYPE: Uncirculated Type has gained the attention of Bidders this week. Dealers are looking for attractive MS64 and better condition examples for their customers. Some of these demands include 1859 Indian Cents; Shield and Liberty Nickels, Capped Bust Dimes, and No Motto Liberty Seated Quarters. The Circulated and Proof Type segments are steady. Bid has increased for Circ Rolls of Indian Cents and Buffalo Nickels.

GOLD: Gold Type remains the low-light of the coin market. Minus signs are pervasive again this week. The target grade this week appears to be MS64. Declines are evident for many denominations of coins in this high state of preservation. Interest has gained for BU 1999 ¼ and 1/10 ounce American Eagles bearing the "W" mintmark. Now Bid $600 and $625 respectfully.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems) will have minor bagmarks and may show weakness of strike. Above average [illegible].

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint [illegible] Morgan, but with the additional feature of deep mirror surfaces on both [illegible].

Please Note: This page alternates weekly with Page 35 which contains BU and Proof Platinum.

LONG BEACH EXPO BEGINS BUSY OCTOBER
1804 DOLLAR HEADS PARADE AT STACK'S SALE

The Market in Depth

Many dealers are traveling to Southern California to attend the public auctions surrounding and during the October 5-8 Long Beach Coin and Collectibles Expo. The Long Beach Expo is considered to be one of the most important coin shows on the circuit. The October show is the final of three Long Beach Shows held this year and dealers have high expectations. Dealers will be setting up on October 4.

Most dealers that we speak with say that they mainly attend this show to **buy** coins. Dealers maintain want lists and try to fill their needs at major shows and public auctions. They will be actively buying select coins for their customers and to replenish their dwindling inventory. It is a time when dealers load-up with coins to carry them through the rest of the year. There will also be dealers in attendance with the job of strictly selling coins. Dealers use large shows to blow-out certain coins that have stagnated in their inventories for a period that they deem to be unacceptable. Doing so provides them with much needed liquidity to be able to take advantage of deals that are too good to miss.

Heritage will host the October 2000 Long Beach Signature Sale to be held October 5-7. The Joshua Collection of Mercury Dimes will be among the collections featured. Heritage will first conduct their Bullet Auction on October 4.

Major rarities, headed by the **Dexter-Dunham**, Original, Class I specimen of the famous 1804 Draped Bust Dollar come together for Stack's 65th Anniversary Sale of United States Gold, Silver and Copper Coins. The auction will be held in New York October 17-19. We have listed a few of the many highlights.

This Week's Market

CENTS THRU HALVES: Brilliant Uncirculated and Proof Rolls are in serious demand. Cents, Nickels, Quarters and Half Dollars are receiving an increase in the number of higher Bids. The need is widespread for a majority of dates, several are wanted in quantity. The market for Fifty State Quarter rolls continues steady with most Bids unchanged.

MERCURY DIMES: Changes for the Mercury series are slight this week. The 1926-D, 1927 and 1935-D all edged forward with increases in Bid. Late dates grading MS66 FB and better are also receiving attention, with several transactions occurring.

WALKING LIBERTY HALVES: Dealers continue to seek out early Walkers. Bid levels remain solid after last weeks run-up of several early dates. The tough 1921-S has moved ahead with higher Bids for those grading MS60 through MS63.

DOLLARS: Once again common date circulated Dollars are on the move. On the Unc side a run of MS60 to MS63 graded dollars are also slightly higher this week. Uncirculated generics are another story, they continue to be stagnant.

PROOF SETS AND MINT SETS: Early Mint Sets are targeted by several dealers resulting in yet another round of higher offers. Proof Sets are also solid, showing no signs of a slowdown in activity. Dealers making markets in 1999 Mint products are now Bidding $57.50 for the Silver Proof Set. The 2000 Silver Proof Sets are available now with no order limits.

COMMEMORATIVES: A few changes are noted for MS65 and better Silver Commems. Both San Diego issues along with PDS sets of 1939 Arkansas and 1950 B.T.W. moved higher. High grade Gold Commems are still in need. The demand has caused the 1915 $2 ½ Pan-Pac to jump 5% this week in MS65. The eleven Gold issues seem almost totally unavailable within current Bid/Ask levels in MS65 and better condition.

TYPE: An explosion of higher Bids for early Circulated Copper and Silver Type has hit the market. This lower grade material in the $300-$3,000 range has been sleeping for some time. Some Dealers are speculating that this area will be seeing new money once beginning collectors graduate from State Quarters. Proof and Uncirculated Type remain strong at current levels.

GOLD: Same old story for Gold Type — mostly minus signs. Along with the somewhat regular amount of slight declines we see a few bright spots. Circulated Type 1 and Type 3 Gold Dollars are in need at higher levels. Along with $20 Saints in MS64 and MS65, $10 Indians in AU are also higher with this report.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight unseen. We do not buy or sell coins or "new" or uncertified, but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally. We do not represent ourselves as dealers in any coin, but rather as reporters of the dealer marketplace. Prices reported are for coins sight unseen at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight unseen market which already includes consideration of current market conditions. A sight unseen certified coin may be higher or lower than for a sight unseen certified coin due to current market conditions. The CDN may not always Bid up to the highest Bid or down to the lowest Ask at the time, but will be normally influenced by buyers who are higher or sellers which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above these prices when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

Wheaten rolls, such as "red" Lincoln cents, are usually worth more than listed prices. Many of the rolls may be found in the MARKETPLACE. Mixed & random rolls are usually worth less than listed prices, particularly the 5-cent issues, which are usually worth more than listed prices.

The PCI *Capsule...*

☑ $8.00 PER COIN
☑ 6-DAY SERVICE

Tells why more people are turning to PCI

☐ **PCI** accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ **PCI** recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ **PCI** provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ **PCI** offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of $8.00 per coin, plus postage and insurance.

☐ **PCI** excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - **PCI** provides a **FREE** storage box when twenty (20) coins are submitted. ($5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

SILVER TYPE JUMPS
LONG BEACH EXPO ENTERTAINS POSITIVE EXPECTATIONS

The Market in Depth

The Long Beach Coin and Collectibles Expo is underway, dominating the numismatic landscape for this first week of October. Most major dealers along with retailers and vest-pocket dealers have arrived in Southern California to participate in the show and the surrounding public auctions. They have begun this show with **high** expectations because of the fresh new faces to collecting and the strong interest for modern material. However, the interest seen in other areas of the market is equally impressive. In many respects, the demand for the late 18th and 19th century coins is even more significant.

Strong Bids have been realized during recent public auctions of Buffalo Nickels, Mercury Dimes and Walking Liberty Half Dollars. When quality key and semi-key dates from these series hit the auction block the Bidders become more active and aggressive. Strong demand for early Circulated, Mint State and Proof Type may be an indication that the collector/investor is developing a higher level of sophistication towards the rare coin market. Indeed, early Type is a far cry from State Quarters.

Morgan Dollars are a also a target of demand again this week. Bidders are specific in their needs trying to buy the dates and grades that they think represent a good value for their customers. The Mint State 60 category for Morgan Dollars got a boost this week. Dealers need specific key and semi-key dates throughout the long series for those collectors working on Uncirculated sets. However, they are finding the availability of these dates in Uncirculated condition troublesome and hope to buy a few with the increased Bids.

Uncirculated Type is another area that is attracting strong Bids this week. This comes on the heels of a boost in the early, Circulated Type of previous weeks. Strength is seen among Capped Bust, Liberty Seated and Barber designs. These are the early **power designs** of rare coins. They combine rarity and beauty, a combination that attracts many buyers. Proof Type is finding similar Bidding for PR63 and PR64 Liberty Seated denominations. Dealers are aware that the Liberty Seated series of coins from Half Dimes to Dollars provides collector/investors with many challenges.

This Week's Market

MERCURY DIMES: Common date Mercs continue to trade frequently at current levels. MS65FB through MS67FB are the grades of interest for these later date dimes. Currently their seems to be an adequate supply in the market thus most Bids remain unchanged.

WALKING LIBERTY HALVES: Walkers are steady after a swarm of increases for early issues the past few weeks. Generic short-set dates are very active in grades MS63 MS65. No problem examples are easily turned over with usually only a brief stay in inventory.

DOLLARS: Morgan Dollars are still one of the hottest areas of rare coins. We have witnessed a growth in the Morgan and Peace Dollar collector base through an increase in Bidding activity. All varieties of the 1878 Morgan are higher in MS60 with strong demand for higher grades as well. Several other Morgan and Peace Dollars are also up in this filler grade of MS60.

PROOF SETS AND MINT SETS: The Proof set market has experienced some recent profit taking from Dealers. After a long run up in Bid week after week some selling off is bound to occur. Demand will chart the course for the future of this area of collecting. Mint Sets remain mostly unchanged with several buyers at current levels.

COMMEMORATIVES: Silver and Gold Commemoratives continue to have their share of Bidder attention. The 1924 Huguenot - Walloon grading XF40 is among the few increases this week for Classic Commemoratives. Gold Commems are steady at current levels as supply satisfies demand. Modern Commems have a mix of plus and minus signs. Bids are higher for select Olympic issues. BU examples of Swimming and Soccer Half Dollars as well as Wheelchair, Rowing, and High Jump Dollars are in need.

TYPE: Mint State Type demand is widespread from 3-Cent Silver pieces to Liberty Seated Dollars. Interestingly, increases are taking place for some MS65 graded examples along with MS63 and MS64 categories. Proof Type is also stronger, showing several minor Bid jumps for Silver issues.

GOLD: After being brutalized for several months Bidders are returning to Gold Type. Some believe excellent values are available now for Gold Type issues. Not only are the premiums down, but several Types are currently experiencing 20 year lows.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen or "raw" (uncertified) but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally. They do not represent what any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already includes consideration of certification costs. Bids for sight-seen coins may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the holding adjustments of the half-bidder that will be necessary to pay if someone presents a coin for sale. Buys Higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay more in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average [illegible]

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp full strike, full lustre, NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the [illegible] characteristics as the corresponding Mint [illegible] Morgan but with the additional [illegible] of deep mirror surfaces on both [illegible]

Please Note: This page alternates weekly with Page 3A which contains BU and Proof [illegible]

YOU'LL BE HAPPY TO KNOW THAT THERE IS A LOT OF CASH IN CALIFORNIA AND MOST OF IT IS AT SPECTRUM NUMISMATICS!

Spectrum Numismatics, one of the largest buyers of rare coins in this country, desperately needs your coins. Whether it's an 1804 Dollar, or a $30 common date Morgan Dollar. Spectrum desperately needs to buy **all** of your coins. The *King of Cash* must spend over one million dollars per week to satisfy its coin hungry clients. In fact, lately, there have been many days when Spectrum's customers have purchased more than half a million dollars worth of coins in a single day! The *King of Cash* has no choice. Spectrum must buy your coins or lose its customers. That's why Spectrum can treat you like no other coin company can. That's why you can sell your coins to the *King of Cash* and then smile all the way to the bank.

HERE'S WHAT YOU WILL GET FROM THE *KING OF CASH*

Every time you sell coins to Spectrum Numismatics, you can be sure you will receive the following:

1. The absolute highest possible price for your coins. Spectrum must buy your coins to keep its clients satisfied. Nobody pays more than the *King of Cash*!
2. Immediate payment. Spectrum Numismatics is one of the best financed rare coin companies in history. The *King of Cash* can pay you on the spot, wire your bank, or Federal Express you a check.
3. Spectrum wants to buy your uncirculated pre-1950 coins. That's why our name is Spectrum, we buy it all. Spectrum's diverse mix of world-class numismatists are experts in all types of coins.
4. If you bump into a deal and don't want to get involved, you can still make money by helping Spectrum purchase the deal. We pay extremely generous finder's fees to everyone who helps us buy coins. In 1998, Spectrum paid $3,129,104 in finder's fees and commissions!

DO IT FOR THE MONEY!

If you have rare U.S. coins...any uncirculated pre-1950 U.S. coins...pick up the phone and call (949)955-1250, to get your piece of the action and your share of the cash!
Call collect and tell them you want to talk to the *King of Cash*.

EARLY COINAGE REALIZING STRONG DEMAND

3-MULES SIDE-BY-SIDE AT LONG BEACH

The Market in Depth

Expectations may have exceeded results for some at the Long Beach Coin & Collectibles Expo, held October 5-8 in California. While others boasted that they had an **excellent show**, partly due to the commendable attendance which surpassed 14,000. Many dealers were satisfied with their bottom line, but others believed that the show was a little quieter than usual. The lack of a solid Gold market may be the culprit. Those dealers that attend shows strictly to Buy coins report of a continuing problem - the lack of fresh material on the market.

Being able to see three Sacagawea Dollar/Washington Quarter mules side-by-side was exciting and educating. After inspection, it has been reported that all three examples were struck with **different** die pairs. Six of the Sacagawea/Washington mules are now known to exist. The sale of a **discovery** Note, the First National Bank of Carson City, Nevada to a western states collector transpired during Long Beach. The Third Charter, Series 1902, Date Back, Blue Seal $5 National Bank Note appeared first in September by dealer Mal Varner. The Heritage Signature Sale held in conjunction with the Long Beach Expo realized more than $4.3 million. Heritage also conducted a Bullet Sale that claimed $326,550. Ponterio & Associates Public Auction #109 realized over $550,000.

Early Circulated coins of many dates and denominations are in demand with plus signs appearing throughout *Quarterly I*. Dealers are trying to buy these early examples to fulfill want list needs. The trick is finding a no-problem, original example that has not been priced out of the market. Some of the early material needed include late 18th century and early 19th century Half Cents, Large Cents, Half Dimes, Dimes, Quarters and Half Dollars. The Flowing Hair, Liberty Cap, Draped Bust and Capped Bust designs are popular and currently in great demand. Seated Liberty and Barber coinage are also very much needed by dealers. Coins that are attractively and originally toned are receiving **crazy** money. Dealers are willing to spend what-ever-it-takes to buy these special toned coins. The rage seen for toned coins is crossing all denominations, from the Commemorative series to the Washington Quarter series. Buyers are in the marketplace trying to accumulate some of these attractively toned specimens.

This Week's Market

CENTS THRU HALVES: The BU and Proof Roll market remains very active. Washington Quarters lead the way as far as advances are concerned. Several dealers are currently competing for these Silver Quarter Rolls dated 1939 thru 1964. Bids are solid for nearly every date with big money being paid for **cherry** rolls.

MERCURY DIMES: Moderate trading is occurring in the Winged Liberty Dime series. Dimes that possess Full Split Bands are receiving the glut of collector/investor attention. Common dates grading MS64FB and MS65FB remain at $16 and $29.

WALKING LIBERTY HALVES: Early Walkers are mixed with nearly as many advances appearing as declines. Attractively toned examples are increasingly sought after as are the blast white beauties. Later dates are stable at current levels.

DOLLARS: Peace Dollars woke up this week commanding higher Bids for Generic MS63 issues now at $74. A few semi better dates are also up in grades VF20 AU50. Morgan Dollars tell a different story, generics are down in MS65 to $70 as are several dates grading AU. On the positive side, a number of increases are taking place for select cartwheels grading MS63.

PROOF SETS AND MINT SETS: After last weeks barrage of minus signs a few sets have managed to bounce back. Several dealers commented in Long Beach that Proof and Mint Sets remain in huge demand. Large quantities of any sets are just not available. Every single Mint Set (1947-1999) is in severe demand at current Bid.

COMMEMORATIVES: Gold Commemoratives have seen their share of activity through out the year. A break in rising Bids is the current status. Silver Commemoratives are also steady at current levels. With an increase in attention towards toned coins, early Commems may be a series to watch. This is a series where a larger number of attractively original toned coins are known to exist. Many of these early Commemoratives were sold and kept in cardboard packaging, resulting in some unbelievably stunning toning.

TYPE: Demand for early Copper, Nickel and Silver Type is found for average Circulated through Mint State 65 graded coins. Seated and Bust Half Dimes, Dimes and Quarters are in constant need. Proof Type is another area that is quite healthy, with a majority issues presently needed.

GOLD: Only a single increase to report for another week of lower levels in the Gold Type market. Type 3 $1 Gold in Very Fine have are now Bid up to $110. The Mint State 64 grade column reveals several slight downward adjustments. On a brighter side High Relief $20 s are solid as a number of players are making markets.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market. It encompasses all possible transactions and prices in today's sight-seen or "raw" uncertified, but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest realistic Asks encountered. They do not necessarily reflect the prices at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight unseen market, which already includes consideration of certification costs. Bids for sight seen coins may be higher or lower than for a sight unseen certified coin due to current market conditions. The CDN may not change Bid due to the holding allowance of the large holders. Low end numismatic collectibles to those which are higher or below which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices, while gem rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices. "gem full steps" rolls when available bring higher prices. In the Mercury, gem, and bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full steps Wheeling (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Roosevelt singles are in the 1200

QUALITY GOLD COMMEMS ADVANCE
OFF TO BALTIMORE

The Market in Depth

As we work our way through October it is easy to see that the market for select rare coins is doing very well. Demand for rare coins is evident by the strength of dealer Bids coupled with an expanding collector base. Optimism is felt among dealers as they prepare for the Fall Suburban Washington Baltimore show. This Oct 26-29 show is one of the few remaining venues left for dealers to stock up before the Holiday season.

The Circulated and Mint State Type markets remain very strong. Dealers, over the last month have increased Bids for several series and denominations. Today they continue to post strong, supporting Bids for many Mint State Type denominations. Demand is targeting grades MS60 thru MS65. Interest is noticeable from early Copper Half Cents thru Liberty Seated and Trade Dollars. Late 18th century and early 19th century Type is especially hot. Dealers are looking to buy multiples of these issues in Good and better condition. Coins that have a minimum of problems for the grade are desired. Bust, Liberty Seated and Barber coinage are needed from Circulated thru the Mint State category. Buyers are willing to pay more if they come across original coins that have very special characteristic. Those Mint State Type coins that have attractive, original color have tremendous demand of late. Dealers have ready customers for these originally toned rare coins. Demand is nearly as strong for Proof Type as well. The market will continue to receive strong Bids until the supply can catch up to demand or if we see a decrease in demand. Currently, the demand seems very solid putting the pressure on supply.

One area that continues to face a thin supply and strong demand is the Gold Commemorative series. The demand for quality Gold Commems has been raging for quite some time with no let-up in sight. We have seen specimens appear on the market via public auction and by private transactions that are quickly absorbed. Consequently it is not unusual in this thin market to see increases, virtually across-the-board for Gold Commems. The increases are concentrated among those issues grading MS64 and better. It is obvious that quality is extremely important to buyers.

This Week's Market

MERCURY DIMES: Early dimes in the teens and twenties with mintmarks are actively sought after. Bids are stable for the majority of Mercs with increases occurring for the 42 over 41 overdate in MS63, the 1938-D and 1945-S both in MS65FB. Common dates are slightly better than dormant for specimens grading MS66FB and above.

WALKING LIBERTY HALVES: The Walker market is mostly unchanged after last weeks report of mixed activity with issues increasing as well as decreasing. This week we see only a couple of downward adjustments for San Francisco minted 1943 and 1944 issues.

DOLLARS: Morgans grading Extremely Fine and Almost Uncirculated are the recipients of positive movements in Bid. These are the top end examples collectors turn to first when upgrading their Circulated Dollar sets. Select semi-key dates are not as fortunate, many were let-go at recent public auctions. Common date Peace Dollars jumped 20% in BU condition now sporting a high Bid of $12.

PROOF SETS AND MINT SETS: A slew of Bidders for Mint Sets have opted to remain at current levels. This has been the case for several weeks now. Nearly every date is in dire need, but only at current Bid. Proof Sets are a different story, several regular issues and some Silver sets have been offered at discount. The majority of positive activity is in Prestige Sets issued from 1983 through 1997, a number of dates are higher this week.

COMMEMORATIVES: Museum quality Gold Commemoratives are at it again. Except for the $50 Pan-Pac issues every example grading MS64 and better are up. Steady increases have been the norm for this series for quite some time now. Silver Commems remain mostly steady at current levels, although a few plus signs have been generated by increased Bids. Several Modern Commemorative sets have been slightly lowered from previous weeks. Botanic Garden and Kennedy Matte Sets are up again, now Bid $215 and $345 respectfully.

TYPE: Widespread demand continues to plague both Proof Type and Mint State Type segments of the market. Strong dealer support at current levels is seen throughout for coins of average quality. Big money is always available for premium quality examples.

GOLD: Circulated Gold Type is finally seeing the likes of few plus signs. The upward adjustments are minor, but its a start. The ongoing depressed spot Gold level continues to be a burden to Gold Type.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems) will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Platinum.

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XXXVIII No. 43 October 27, 2000 *. . .a Friday morning report on the Coin Market*

MAJOR RARITIES ALWAYS IN FAVOR
$7.1 MILLION FOR STACK'S 65TH ANNIVERSARY SALE

The Market in Depth

Strong prices realized at public auction combined with solid Bids on the electronic dealer networks has provided much optimism about the current state of the rare coin market. The Suburban Washington-Baltimore show is now underway amidst this market optimism. Dealers are hoping to increase sales by buying coins that are currently needed by their customers. Collectors have become much more savvy in 2000 and dealers are trying to accommodate their strict requirements. They are looking for coins that have eye appeal and "the look" that generates an instant sale. Problem coins continue to be heavily discounted and receive little or no interest. Buyers have become more patient, willing to pass by coins that do not meet their needs. Dealers often educate their customers, helping them understand the approximate amount of time it will take along with the amount of money needed to obtain the proper coin. Major rarities are among those coins that are retained on well-heeled collectors wish lists. However, if these amazing coins are not available in a reasonable time frame, desire and interest can wane. These are some of the factors that enter the demand thought process in a collector's equation. It is important to keep in mind that many of these wish list coins are collected by dealers as well. The October 17-19, Stack's 65th Anniversary Sale realized more than $7.1 million. Included in this sale were several wish list coins sure to please a few of the most extremely challenged collectors. There were 11 coins that brought over $100,000. This included the famous "King of American Coins" 1804 Draped Bust Dollar; a PR64 Original, Class 1, Dexter-Dunham specimen that brought $1.84 million. We have listed the prices realized for the other 10 $100,000 plus major rarities.

This Week's Market

CENTS THRU HALVES: Early Washington Quarters continue to lead the BU roll market. Just about every date prior to 1965 is needed. Rolls of Franklin Half Dollars also made a run this week, displaying a basket of plus signs. 1999 Silver State Quarters are down slightly as dealers await the delivery of sets dated 2000.

MERCURY DIMES: Selective support is seen for early and semi-key dates in grades MS64FB and higher. Only a single increase to report this week: the 1939 has climbed to $135 Bid in MS65FB. See the Bluesheet for an increase in action developing for later dates grading MS66FB and above.

WALKING LIBERTY HALVES: A number of S Mints remain in demand at current levels for those making the MS65 grade. Nicely toned specimens are bringing a pretty penny over existing Bid levels. BU Walkers from the short-set dates are extremely healthy at present.

DOLLARS: Common date Morgan Dollars appear to have stabilized. Even though we have few changes to report for Uncirculated Morgans, transactions are occurring within current Bid/Ask levels. Peace Dollars are also stable this week. Ike Dollars are steadily becoming more popular, pluses are seen again this week for a few dates. 1999 P and D emergency issue Anthony Dollars are up with a high dealer Bid of $2650 for a bag of $2000 face.

PROOF SETS AND MINT SETS: Mint Sets are still severely sought after. Every Mint Set is in need at current levels. Buyers continue to out number sellers in this market. The Proof Set market is somewhat mixed as of this report. Prestige Sets issued from 1983 thru 1997 dominate the positive trading action.

COMMEMORATIVES: Gold Commemoratives have taken a break this week from the usual barrage of plus signs. Don't miss understand, Gold Commems remain as one of the hottest areas of numismatics. Classic Silver Commemoratives also have little to report this week in the way of plus sings.

TYPE: Early Dollars are the current highlight of the Circulated Type market. Flowing Hair and both Draped Bust designs are higher, mostly in grades Fine thru Extra Fine. The Brilliant Uncirculated side of the Type market is encouraged by increases for all Liberty Seated Dollars and Reeded Edge Capped Bust Halves.

GOLD: The lower Gold Type Bids we have seen week after week seem to have finally stopped decreasing. Buyers may have concluded that their is value at these levels. Type 3 $20 Libs are up, now Bid $1740 in MS65 condition.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all public transactions and offers to buy and sell coins sight-seen. The coins must be certified or "raw" uncertified, but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight unseen** market, which already includes considerations of certification costs. Bids on a sight seen "raw" coin may be higher or lower than for a **sight unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be revised upward to those which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above these prices when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, special or ornamental reverse rolls are usually less than bread-and-butter rolls. In the Jefferson series, value of the rolls in the late 1950s tend to be dictated by bullion prices. Some first-year rolls and a number of key-date rolls, such as the Roosevelt dimes, have bands' rolls are worth more than listed prices, particularly the pre-1941 issues. Washington quarters rolls are "bag quantities" being priced. Some but not all of the Franklin half dollars, particularly the Symbol issues, are worth more than listed prices. MS-65 singles may be found in the MORGAN AND PEACE DOLLAR section.

STRONG FINISH AT BALTIMORE
TYPE, COMMEMS & DOLLARS IN DEMAND

The Market in Depth

Most of the dealers that we spoke to agreed that the Suburban Washington-Baltimore show began slowly but finished rather well. Of course, most dealers were mainly interested in buying coins to fill their customer want lists and inventory needs. However, a number of dealers were also rather pleased with their retail sales during the October 26-29 show. Dealers that were there hoping to buy coins found sellers more willing to part with select rare coins by late Friday. Several dealers were looking for better date Morgan Dollars, particularly in MS65 and better condition. The Dollar market has been strong with many collectors upgrading their Uncirculated sets as well as their Circulated sets. Carson City and San Francisco Dollars remain hot. Buyers want clean, attractive coins.

Type, both Mint State and Proof was another target area for dealers in Baltimore. They are most willing to buy coins that appear fresh and considered to be premium quality for the grade. The bulk of this demand is chasing coins grading Mint State 64 and Proof 64 and better. However if an attractive MS61-63 appears, it is also carefully considered. Bust, Liberty Seated and Barber designs were eagerly sought-after during the show. Even extremely high grade examples became the object of strong demand.

Early Circulated Type was another area that was aggressively examined. Circ Bust Dollars are on **fire**! Any example that is nice, whether it be raw or certified receives careful consideration. Silver Commemoratives were another dealer favorite during the Baltimore show. Mostly, there were quick sales for Commems MS64 and better. Demand was strong for coins brilliant white or with attractive, original color.

Gold coins remained the sore spot for the coin market. Bullion has not helped matters, languishing near the $265 per ounce level. Consequently, it is not so easy for dealers to be excited about the yellow metal in numismatic form.

BOWERS AND MERENA DATE	DENOMINATION	GRADE	PRICE REALIZED
1799/8	Draped Bust Large Cent, S-188	VF35	$48,300
1892-O	Barber Half Dollar, Micro O	MS61	$10,350
1794	Flowing Hair Dollar, B-1, Woodin	netVG8	$34,500
1873-CC	Liberty Seated Dollar	netEF40	$13,800
1892	$20 Liberty	PR64	$25,300
1907	$20 Saint-Gaudens, High Relief, WR	MS63	$17,250

The Robert W. Schwan collection auction held in conjunction with the Baltimore show conducted by Bowers and Merena realized more than $2.2 million. We have listed a few of the many highlights.

This Week's Market

MERCURY DIMES: As mentioned here for quite sometime Winged Liberty Dimes are steady. Buyers are paying Bid for a multitude of dates and grades. The main focus remains on Dimes exhibiting Full Split Bands. Collector demand has pushed the 1942/41 higher in MS65 FB.

WALKING LIBERTY HALVES: Brilliant Uncirculated Walkers are healthy for both early dates and late dates. Much of the interest is for issues with mintmarks. A growing number of supporting Bids are chasing select MS65 and better graded Walkers. Only so many collectors can be satisfied with the limited supply of museum quality examples available at these levels.

DOLLARS: Interest in better date Morgan Dollars continues to be quite impressive. This week reveals a load of plus signs garnishing the MS60 grade column. Generic common date issues remain unchanged with few if any sizable transactions occurring. Circulated examples grading Good thru AU are stable despite a dropping Silver Spot. Peace Dollars are experiencing a slight downward adjustment in Bid for a couple select dates grading MS64 and MS65. Eisenhower Dollars continue to be in need at current levels, with nearly every date having a buyer waiting.

PROOF SETS AND MINT SETS: Dealers dealing in modern mint products are still awaiting the arrival of Silver Proof Sets dated 2000. Most of these sets are earmarked for upcoming Holiday sales. Early Proof sets still receive the most attention with a couple increases for sets dated 1942 and 1950. A giant premium will be paid for sets that remain original and **unopened.** Although no minus signs appear in the Mint Set chart, action has slowed. The impressive number of players seen in this market for several weeks now has somewhat dwindled.

COMMEMORATIVES: Gold Commemoratives are currently represented as one of the hottest series in the market. Those little Gold Gems grading MS63 though MS67 remain in severe demand. Dealers continue to have a tuff time acquiring coins to place with customers. An increase in dealer activity has developed for high grade Silver Commems.

TYPE: Interest in Proof Type as well as Mint State Type remains solid. Blast white examples of Silver and Nickel Type always sell well, but a growing number of collectors are currently after attractively toned pieces. Many new collectors are being introduced to Circulated Type from the 18th and 19th century. Draped Bust and Flowing Hair Dollars are enormously active for any undamaged examples.

GOLD: The discounting has stopped for a second week, even though Gold Spot has moved lower. With several Gold Type issues at or near 20 year lows, some may feel a buying opportunity is at hand. Still, others remember the 21 year low of $253 per ounce registered just over a year ago at the end of August 1999.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60–Unc.: May not have full mint lustre; may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63–Choice BU: Brilliant Unc.; may exhibit some toning, but it should not be as dark as it has any problems); will have some bagmarks; and may show weakness of strike. Above average.

MS64–Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65–Gem BU: Sharp, full strike, full lustre. No major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67–Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: With exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional features of deep mirror surfaces on both sides.

Please Note: This page alternates weekly with Page 33 which contains Gold and Platinum

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XXXVIII No. 45 November 10, 2000 *. . .a Friday morning report on the Coin Market*

EARLY TYPE NEEDED
BASS GOLD HITS AUCTION BLOCK

The Market in Depth

The market for Uncirculated rare coins is very strong for coins that exhibit nice eye appeal, strike and luster for the grade. Circulated coins are also experiencing excellent demand for coins that have little or no problems for the grade. It is easy for dealers to pay top dollar for coins that they know will be readily accepted. Buyers do have their specific requirements. Rarity and quality are often found at the top of the list of importance. Price is only *sometimes* the deciding factor because the other two ingredients used in deciding to buy rare coins carry much greater weight.

Interest for early Type is evident, as seen in this issue, the November *CDN Monthly Supplement* and *CDN Quarterly Part II*. There almost never seems to be any trouble finding a home for Early Type, especially when the coin is original and nice for the grade. Demand is chasing Circulated key and semi-key dates of late 19th and early 20th century series. Rarities such as the 1877 Indian Cent; 1909-S VDB Lincoln Cent; 1885-1887 Liberty Nickels; 1918/17-D and 1921-S Buffalo Nickels; 1916 and 1921 Standing Liberty Quarters; and, the 1901-S Barber Dime are on many want lists. Uncirculated examples of these dates find strong demand as well. Washington Quarters are hot in MS63 and better grades. Dealers are trying to meet the strong collector demand for early Washingtons. However, locating these once believed common pieces are another story. Early Flowing Hair, Draped Bust and Capped Bust Half Dollars are **red hot**. Dealers are looking for no-problem examples in grades from Good thru MS63. This same interest is targeting early Dollars. Here, the demand is even stronger with buyers being more aggressive and willing to pay what ever it takes to be successful. Plus signs are appearing all over our early Dollar chart in Fine thru MS60 condition. Liberty Seated coins are also attracting attention.

BOWERS AND MERENA DATE	DENOMINATION	GRADE
1858-S	$1 Indian Head	MS65
1875	$1 Indian Head	MS65
1796	$2.50 Capped Bust, No Stars	AU55
1859	$2.50 Liberty	PR66
1873	$3 Indian, Closed 3	MS64
1842	$5 Liberty, Small Letters	PR63
1848	$5 Liberty	PR63
1861	$10 Liberty	MS66
1913-S	$10 Indian	MS66
1921	$20 Saint-Gaudens	MS63

Part IV of the Harry W. Bass, Jr., collection is scheduled for November 20-21 in New York. Bowers and Merena will conduct the sale that features U.S. Gold exclusively. We have listed a few of the many highlights.

This Week's Market

CENTS THRU HALVES: Buyers are everywhere for several BU and Proof rolls. Sellers have been sitting back watching this area advance with nearly every report. Washington Quarters lead the excitement, but Franklin Halves are coming on strong. Modern issues continue to amaze, see the round of increases for 1987-S and 1988-S Proof rolls. Fifty State Quarters remain fairly active at current levels. Be sure to examine your BU rolls, several dealers have reported being burned with XF/AU quality coins.

MERCURY DIMES: Accurately graded Mercury Dimes continue to be easy sellers. This is especially true for early dates (pre 1930's) bearing mintmarks. As far as the later dates are concerned the action is mostly seen in higher Full-Band grades of MS66FB and MS67FB.

WALKING LIBERTY HALVES: Steady Bids chart the course for Brilliant Uncirculated Walkers. Most early dates remain in demand. Coins that are above average for the grade, carry attractive toning or that are 100% white are easily placed with today's collectors.

DOLLARS: Higher dealer Bids have resulted in a bunch of increases for select Morgans grading MS63 thru MS64. Common circulated dates are up slightly in the Very Good and Fine grade columns. Peace Dollars are relatively stable at current levels. Most dates in this short series continue to be sought-after in Uncirculated condition. No changes to report for either Ikes or SBAs.

PROOF SETS AND MINT SETS: Active trading has become the norm for Proof Sets and Mint Sets. A couple reasons may include the huge surge in certified high grade modern issues, and Internet auctions. The amount of end users for these coins has increased dramatically.

COMMEMORATIVES: Although Silver Commemoratives are very active at today's levels, we are still finding sellers who are willing to discount various issues. Gold Commems continue to impress, as more buyers are present than one might imagine. Bids are not being raised as dealers in-the-know actively acquire examples at current levels from the less-informed.

TYPE: Don't be discouraged by only a few plus signs in this weeks Type charts. There is an extremely large number of buyers trying to acquire Type coins at current levels. And the issues that sport minus signs seemed to be active as well, just at lower prices.

GOLD: A mixed bag is seen for Gold Type this week. While the twenties have gone down slightly in Circulated grades, the tens have gone up in Uncirculated condition. Several of the small denominations are down in the MS65 grade column.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight seen. This report may be certified or "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally. They do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already include consideration of certification costs. Bids for a sight seen coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be encouraged to [illegible] are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

You can find your key date or type from this sample list (or call us for a more complete list) for immediate delivery at these favorable prices.

Finding Key Dates and Types has always been a challenge. Building a collection to include the key dates and types is part of the excitement. We have been locating and buying the best we could discover for twenty years. Over the last several years, we have turned our attention to even better quality and redirected our marketing to sell direct to the collector instead of selling to another dealer first.

If you don't see it here, send us your "want list" and put us to work (for FREE). Because we have many clients who have turned to us for filling the key "holes" in their collections, many excellent examples that we buy never make it to market. Plus, these want list clients enjoy more favorable pricing since we do not need to advertise or incur other marketing expenses. Your want list will command as much attention as any we now have and our service is FREE. Call us, mail it, or email to **info@tagz.com** and put our buying power to work for you.

Please call immediately if you an interest in any of these coins (or others not listed) by dialing toll free at 800-545-1001.

Here is just a sample of the coins we carry to assist in completing top quality collections:

1776 Continental Dollar PCGS AU53. CURENCY. Struck in pewter. Attractively toned in a pleasing shade of light gray, highlighting remarkably clean, problem-free surfaces. Sharply struck, with truly outstanding eye appeal. Highly recommended. $19,000

1916-D Mercury Dime PCGS MS64FB. Full split and rounded bands. Full mint frost. Beautiful, borderline Gem surfaces. Here is a wonderful example of this famous 20th century dime rarity. $17,500

1918-S Standing Liberty Quarter PCGS MS65FH. A razor-sharp full head. Pleasing, vibrant mint frost has a mere hint of uniform rose iridescence. Superb, virtually flawless Gem quality surfaces. $8,250

1921 Walking Liberty Half PCGS MS63. Bold satin-like mint frost emits a hint of beautiful rose-sunset iridescence. The obverse is virtually flawless, and worthy of Gem classification, while the reverse has a few scattered contact marks well concealed within the eagle's feathers. Certainly, this outstanding coin is among the most impressive to carry the "63" designation. $4,500

1930-S Ten Dollar Gold PCGS MS65. Blazing mint brilliance. Superb surfaces. This coin is from a small group which surfaced years ago, and is characterized by a blush of flashy sunset iridescent toning. One of the finest few in existence. $23,500

1913 Twenty Dollar Gold NGC PR66. Gorgeous deep golden sandblast textured surfaces. Visually exciting, as are all Matte Proof double eagles and a remarkable value, considering its great rarity and historic significance. Among the nicer survivors of the 58 struck. $62,500

SANTA CLARA BEGINS WITH DEALERS LOOKING TO BUY

The Market in Depth

So far, November is proving to be a very active month for rare coins. Dealers are currently in Santa Clara, California attending the November 16-19 show. Several dealers use this and other year end shows strictly to buy. Primarily, the demand comes from collectors, as they continue their quest to upgrade and add scarce dates to their collections.

The Morgan Dollar market is on a roll. Increases are seen for all common date Silver Dollars. Morgan Dollars are receiving a strong $19 Bid for pre-1921 Uncirculated examples. Incidentally, the most common date, 1921 is now Bid at $12 in Brilliant Uncirculated condition. This Bid matches the high Bid for common date Peace Dollars. Classic Commemoratives and the Type markets are solid at current levels. Dealers are regularly supplying supporting Bids for many coins in these categories. Weak precious metal spot prices continue to put pressure on the Mint State and Circulated Type Gold market. Collector/investors may be getting more interested in buying these coins at what looks like bargain prices.

Modern issues continue to be the target of strong Bids by dealers. Many new collectors have begun their interest in numismatics via the modern Proof Sets, Mint Sets and Commemoratives. Of course, this comes after the initial initiation from the State Quarter program. Demand is very strong for many of these modern areas. This week, several dealers are offering to pay above current Bid for a number of Proof Sets. Some of the sets needed include: 1968-S; 1969-S; 1971-S; 1972-S; 1982-S; and, 1983-S. They are willing to buy up to 1,000 sets of each at these new higher Bids. Quantities like these give us a good indication of the strong demand. This is true despite some slight discounting taking place in later date Mint Sets. A strong increase is seen for the 1973-S 40 percent Silver Eisenhower Dollar. This better date of the series is also needed in roll quantities.

Proof Sets	Jan-7-00 Bid	Nov-17-00 Bid	% Change
1997 S Silver	$41.00	$82.00	+ 100%
1995 S Silver	$48.00	$95.00	+ 98%
1980 S	$ 6.25	$11.90	+ 90%
1988 S	$ 7.10	$13.00	+ 83%
1990 S	$10.00	$18.00	+ 80%

This Week's Market

MERCURY DIMES: Increased activity for high grade Mercs continues to spawn from recent auctions containing superb collections. The main focus has been on early better dates grading MS65FB and higher. Also note the advance of the 1937D in MS63-MS64.

WALKING LIBERTY HALVES: Two entirely different areas of this series remain in solid demand. First, early dates in Gem condition and higher. Attractive examples Bid within $2,000-$7,500 are the target. Secondly, buyers are present for a majority of the mid to later dates (1934-1947) grading MS60.

DOLLARS: The market for Morgan and Peace Dollars is still expanding. New, higher Bids are prevalent for Generic Morgans in Uncirculated condition. The 1921 issue is also up in Circulated grades from Very Good thru Very Fine. Peace Dollars remain healthy with a couple of increases in the MS63 grade column.

PROOF SETS AND MINT SETS: Proof Sets are still climbing higher. Another flurry of Bid jumps has occurred this week. See some amazing gains for sets this year in the chart to the left. Clean sets, complete with all original Mint packaging are a must. Those sets that are still sealed in their original shipping boxes can often bring even more money. Mint Sets are also showing signs of activity with some corrections in Bid occurring from dealer discounting.

COMMEMORATIVES: No increases or decreases appear this week for classic Silver or Gold Commemoratives. Transactions are taking place within current Bid and Ask levels. Modern Commems tell a different story, sporting both advances and declines. Several sets containing modern $5 Gold issues are down slightly. Selective advances in Bid are seen for both BU and Proof Dollars.

TYPE: An increasing number of buyers are trying to acquire Circulated, Mint State, and Proof Type. The pressure from the increase in the number of dealers participating may eventually translate into higher Bids. Capped Bust Half Dollars are higher in Circulated condition for both Edge Types.

GOLD: Stable is how the current Gold Type market can be described. It has been a rather devastating year for those with positions in this area. A simple boost in Bullion Spot would make a significant difference.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be "certified" or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the spread at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already include consideration of certification costs. Bids for a sight-seen coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp [illegible] with no major distractions in field or on main devices. Attractive toning permissible. A very high percentage of available BU coins make this grade. Must have eye appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Price of such seldom encountered specimens are based upon the merit of each coin. They range from very scarce to unknown according to date.

Deep Mirror Proof-like: [illegible] have features as the [illegible]. May have Morgan but with the [illegible] on both sides.

*Please Note: This page alternates weekly with Page 3A which contains [illegible] and Proof Sets.

Single copy price $4.00 Vol. XXXVIII No. 47 November 24, 2000 *...a Friday morning report on the Coin Market*

MARKET SELECTIVITY INCREASING
DEMAND TARGETING SPECIFIC AREAS OF INTEREST

The Market in Depth

Retail sales by dealers were slightly less than expected for some during the Santa Clara show held November 16-19 in California. However, dealers did report that demand was strong for rare coins that are selling between $50 and $1,000. Many coins, but not all, at the $25,000 and higher level were much tougher to sell. There is an increasing amount of evidence pointing towards a market that is highly selective today. Coins that possess strong eye appeal are very much in demand. Buyers are willing to pay strong money for coins that meet this requirement. Coins that are above average for the grade is another major plus for serious and knowledgeable collector/investors. Some sophisticated, new collectors are willing to do their homework, by researching and analyzing a specific series for its potential. In one comparison between Bust Dollars and Morgan Dollars, the nearly 200 year old Bust Dollars were deemed undervalued compared to the much more common 100 year old Morgan Dollars. Dealers are telling us that Bust Dollars are just not available. If one does appear on the market, it is quickly snapped-up at higher prices. This is especially true if the coin is nice for the grade.

Mint State and Proof Type markets are **hot**. Dealers are looking for Proof or MS64 and better Liberty Seated Quarters, Half Dollars and Dollars. MS63RB and MS65RB 2-Cent pieces along with MS64 Capped Bust Half Dollars are increasing. Proof 64 and better Morgan Dollars are another elusive dealer need. Proof Indian Cents in PR64 and better are being sought-after in full Red. In addition, attractively toned Red and Brown examples are also being bought. Some dealers report that Silver Commemoratives are becoming more active. They say that exceptional demand exists for attractive Commems with original color.

Some dealers believe that the market is doing just fine with collector coins realizing extremely strong demand. Red Indian Head and Lincoln Cents continue to be found on dealer's customer want lists. Mint State 64 and better Washington Quarters are also a favorite among today's buyers. Modern "super grade" coinage is also spoken about quite highly by dealers. There seems to be an insatiable demand for this material. Interest is seen for early Mint Sets, Proof Sets, BU Rolls, Eisenhower Dollars, Anthony Dollars and complete sets of many 20th century series.

The Coin Dealer Newsletter family of publications wishes to extend a Happy Thanksgiving to you and your family. Have a safe and enjoyable holiday.

This Week's Market

CENTS THRU HALVES: Jefferson Nickels have now joined the Bidding action that we have seen all year for Washington Quarters. Several rolls are receiving an increase in interest resulting in some decent Bid jumps. These rolls will most likely be picked over for Full Step examples capable of receiving "super grades" of MS68 or better. This week Washington Quarters are sporting fewer plus signs than we're used to seeing. Even though most Bids have remained the same, dealers are still stacked up, wanting to buy at current levels. State Quarters are being discounted with quantities of the first 3 states available at lower prices.

MERCURY DIMES: A few selective, negative Bid adjustments have occurred in the MS65 Full Band column. On the brighter side, dealer promotions has pushed the 1934-D Mercury Dime to rise in grades XF through MS64. The remainder of the series is unchanged

WALKING LIBERTY HALVES: Early dates grading MS65 and above remain in demand, as we have previously noted. The first date of issue is where the action lies with this report. The Denver Minted issue is down slightly while the Philadelphia is up leaving the San Francisco issue unchanged. Later dates also remain in demand with the focus on Slider to better condition.

DOLLARS: Brilliant Uncirculated Peace Dollars are still being bought-up at the $12 level, with several more needed. Morgans of the same quality remain steady with a Bid of $19. Interest is widespread for most dates and grades throughout this long series. Slight downward adjustments are seen in the Circulated Peace Dollar column

PROOF SETS AND MINT SETS: Mint Sets have bounced back in a big way. After last weeks "sell off" serious buyers are back. Take a look at the round of Bid jumps affecting the early Silver issues. Proof Sets are mixed, showing both plus and minus signs.

COMMEMORATIVES: Panama-Pacific Exposition Commemoratives are appearing more often on want lists. The Silver Half Dollar is in need at current Bid for all Uncirculated examples. The $2 1/2 Gold Commem is higher this week in MS64, now Bid $4,750. With heavy dealer competition, occasionally one must substantially raise Bid in order to buy coins. Just being the highest Bidder does not always work.

TYPE: Mint State and Proof Type remain the object of desire on most collector want lists. Strength is seen across-the-board, as dealers are buying all denominations. The only requirement is that the coins be original and attractive for the grade.

GOLD: This market seems healthier all the time, even though dealers are reluctant to raise Bid. With a few weeks now of light to moderate trading, the discounting appears to have stopped. High Relief $20 Saints continue to attract Bidder attention.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight unseen market, which already include consideration of certification costs. Bids for a sight seen "raw" coin may be higher or lower than for a sight unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter*.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem," full-step rolls, being scarce, command higher prices. In the Jefferson series, some of the rolls in the late 50's tend to be dark; these bring lower prices. "Gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls, dull or "put together," bring lower prices. Gem, full steps Wahington rolls (particularly the 5-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CORE.

BASS GOLD REALIZES $6.4 MILLION
MIXED MARKET FOR HOLIDAY SEASON

The Market in Depth

December is a time when the holidays and the last month of the fiscal year coincide. Dealers are preparing for the expected busy holiday season. They are scrambling to freshen inventory and successfully fill their customer's holiday shopping needs. Locating these special coins in a limited time is not always that easy. Often, it takes a lot of patience and time before an opportunity is at hand. Consequently, dealers continue to increase Bids, check other dealer's inventory lists and review upcoming auction catalogs. This activity would be manageable if that was all a dealer had to do all day. Unfortunately, traveling to coin shows and auctions along with the daily rigors of the coin business keep the dealer's work plate rather full. Cash flow is a very important ingredient for any dealer to be successful. Funds must be readily available when the right coin is uncovered. Of course, cash is also needed for travel and to purchase the unexpected accumulation or collection that may come along. A decent credit line is a must for those deals that are just too good to pass up.

Early December finds most of the major series and denominations holding steady at current levels. Activity is evident with several buyers willing to pay at or near the current price levels. Dealers looking to clear out some stock before the new year have begun discounting select coins. Morgan Dollars have been the recent target of much of this discounting. Brilliant Uncirculated, white examples became available at lower prices. In some cases, the discount may be a welcome sight to those dealers looking for these dates for customers. We do notice that the weakness is taking place in select higher grade MS64 and better Morgan Dollars. Peace Dollars are also experiencing some of this discounting activity as well. However, Brilliant Uncirculated Morgan and Peace Dollar rolls are holding firm at current levels for typical rolls. Original, white rolls with a few attractively toned examples command even stronger Bids.

The Harry W. Bass, Jr. Collection Part IV claimed more than $6.4 million in New York. The sale was conducted November 20-21 by Bowers and Merena Galleries . To the left we have listed a few of the many highlights.

This Week's Market

MERCURY DIMES: No movement to report for Winged Liberty Dimes. Demand has somewhat diminished for common dates of average quality. The key dates tell a different story as they remain in constant need, especially for those possessing eye appeal.

WALKING LIBERTY HALVES: Uncirculated Walkers needed to assemble short sets (1941-1947) are wanted in quantity. Higher Bids have been placed for Half Dollars dated 1946-D and 1947 in Mint State 64 condition. At the other end of the Walker series we see similar demand. The need for early dates in high grades has not let up.

DOLLARS: Common date Morgan Dollars are weaker in Extremely Fine through Mint State 60. The market makers supporting this area have receded. Several slightly better dates grading MS65 are lower from select discounting. Generics grading MS63 through MS65 are currently steady. Minus signs are seen for few select Peace Dollars. Eisenhower and Anthony Dollars continue to be active.

PROOF SETS AND MINT SETS: There is as much activity for Mint Sets and Proof Sets than just about any other segment of the market. Normally this area will heat up during the holiday buying season. Proof Sets are represented by columns mixed with slightly more plus than minus signs. Mint Sets continue to show solid demand for nearly every date. The 1968 and 1969 issues are slightly higher this week.

COMMEMORATIVES: Modern Commemoratives are another area that will usually heat up during the gift giving time of year. Another round of increases is seen for the 1986 Statue of Liberty and 1989 Congressional Silver Dollars in both BU and Proof condition. All 3 Commemorative Sets containing either Matte Proof Jefferson Nickels or Kennedy Half Dollars, have once again, been pushed to higher levels. Classic Gold and Silver Commems remain in steady demand.

TYPE: Wide spread interest in Type collecting continues to fuel this market. Equal interest is seen for both Proof Type and Mint State Type. Proof Indian Head Cents grading PR65 and higher with full Red surfaces have inched higher. Flying Eagle and Copper Nickel Cents are also higher in Good condition.

GOLD: Generic Gold Type is rather quiet entering this last month of trading for the year. Type 3 Twenty Dollar Liberties are off $5 in MS63, they are now Bid $425.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all popular trading [illegible] and [illegible] to buy and sell coins sight seen. The [illegible] reflect [illegible] but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen [illegible]. Any [illegible] which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight unseen market which already includes some [illegible] of certification costs, these [illegible] may be higher or lower than for a sight unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding [illegible] on the high grades, but will be strongly influenced by these levels. Bids or Offers which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions, you should expect to pay a premium above the [illegible] coins in a retail transaction, you may also consider [illegible] a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre; may be dull toned or spotted. May be the worst possible example; shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: [illegible] some lustre, but it should not be subject to any problems; will have [illegible] show weakness of strike. Average eye-appeal.

MS64-Distinct BU: Far and away nicer than MS63 yet a near miss MS65. Few contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. No major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% [illegible] struck and virtually perfect in all other respects. Price of such seldom encountered specimens are based upon the merits of each coin. They range from very [illegible] known according to date.

Deep Mirror Prooflike: [illegible] have [illegible] Must [illegible] be well [illegible]

Littleton's custom coin folders and albums have struck a chord with collectors nationwide. Unlike the old-style folders and albums, Littleton's products were designed with customer input.

White cotton gloves are included **FREE** with every Littleton album so you can protect your coins from fingerprints and oils while you handle them!

Crystal-clear inert plastic slides are archival safe and allow unimpaired viewing of your coins.

Mintage figures are provided for each year

Littleton's albums lie flat, unlike "old style" post-binding albums.

AN INVITATION TO ALL PROFESSIONAL NUMISMATISTS

California Gold Marketing Group respectfully invites you, as a professional numismatist desiring to become an official member of the *SS Central America* Ingot Marketing Program, to complete and submit the application listed below.

Membership is open to all professional coin dealers, regardless of the size of your business. Requirements are that each authorized *SS Central America* associate be a member in good standing of the American Numismatic Association, and to provide three current numismatic references and one bank reference.

Ingot sales will only be made through this network, and are not planned to be expanded after December 31, 2000.

Official members will have the use of *SS Central America* logos for the duration of our marketing program as well as being featured regularly in our numismatic advertisements.

We are currently planning to release the ingots in 10 phases over 2001 and 2002. Each ingot will have a suggested asking price, which will be published. Associates will then receive a commission, based aggregately upon their total sales over the duration of the program.

Over the span of our sales, interesting highlights from Q. David Bowers new masterpiece book, hundreds of pages illustrated in color, on the California Gold Rush will be serialized in our weekly displays. Each ingot purchased will come with a hand engraved leather bound edition that has authentic *SS Central America* gold dust displayed in the cover! These copies will not be available for purchase–they only are included with ingots. A popular trade edition will be printed also.

We thank you for all of your support and excitement and look forward to this once in a lifetime event.

Sincerely,

Dwight Manley, Larry Goldberg, Ira Goldberg, Q. David Bowers, John Albanese

The Appeal of Gold Ingots

Although gold ingots were once a familiar and necessary part of Gold Rush commerce, virtually all have disappeared in the generations since the 1850s. Indeed, until the discovery of the *S.S. Central America* treasure, no ingots of comparable large size were known to exist anywhere, and even small ingots were considered so rare as to be almost unobtainable. For example, the fabulous gold coin collection of the Smithsonian Institution, the California gold cabinet of the late Henry Clifford, and other specialized collections, had just a few small ingots at best.

Now comes an opportunity unmatched in the history of numismatics. Slightly over 400 ingots from five different assaying firms will be coming to market. Each one is unique as to weight, serial number, the degree of purity, imprint, and in many instances the value at the time (1857) in dollars. Each is of gold from the rivers, hills, and mines of the golden state. The few ingots, no more than several dozen, shown with the "Ship of Gold" exhibit created an absolute sensation—as even numismatists of long standing and great expertise had never seen such things. Never before in American numismatics has such an offer been made. And, when it is concluded, we have no indication that any other treasure ship will ever yield even a single similar ingot! In a phrase, the *opportunity is unique.* –QDB

PROOF GOLD — AVAILABLE FOR HOW LONG?
FLYING EAGLE CENTS SOAR

The Market in Depth

Rare Proof Gold has suffered in early December with discounting taking place in several denominations. Since late 1998 we have seen much more Proof Gold on the market than we have seen for many years. This situation has developed from the dispersal of the Ed Trompeter, John Jay Pittman and Harry W. Bass, Jr., estate collections featuring Proof Gold among other numismatic rarities. The increase in supply of Proof Gold from these collections, with most recently the Bass Sales, has put tremendous pressure on demand. This is not to say that the demand for Proof Gold is non-existent. It just points out a temporary imbalance of supply and demand created by these sales. Recent auction prices confirm this weakness. Consequently, numerous minus signs are now appearing for Proof Gold issues grading Proof 64 and better. When these coins are finally absorbed in the marketplace, prices will probably begin to recover. The scarcity and quality of these coins is well known by dealers. They have almost always received strong demand throughout numismatic history. Some dealers may view current weakened levels as an excellent entry point for themselves and their customers. Those that analyze the population reports may be able to rip a scarcer issue for nearly the same price as a common example. Opportunities seem to definitely exist for prudent buyers.

The remainder of the rare coin market is mixed as the first full week of December concludes. Buyers are being very cautious before making any purchases. They carefully examine each coin trying to buy only those examples that have above average qualities for the grade. Many believe that it is a buyer's market with smart money being spent for unvalued rarities. Dealers are quick to buy key and semi-key dates of all series and denominations. The Type market continues to do rather well with dealers facing constant collector demand for this material. Rare date Liberty Seated and Barber coinage are among the items sought-after by dealers. However, early Flowing Hair and Bust coinage are also considered prize material.

This Week's Market

CENTS THRU HALVES: Washington Quarters continue to amaze. Numerous buyers are eager to purchase rolls at current to higher levels. Late date Mercury Dime rolls are receiving some new attention, interest is for Dimes dated 1942 thru 1945. Across-the-board increases for 1988-S and 1989-S Proof issues. State Quarters are mostly steady with Pennsylvania-D's being the only looser.

MERCURY DIMES: White key and semi-key dates remain solid in grades MS64FB and higher. Attractively toned examples share equal interest. Take note of a round of Bid jumps for Mercs dated 1934-D.

WALKING LIBERTY HALVES: A few slight negative adjustments are seen in this weeks Walker chart. These adjustment should not change your perception of the Walker market, several dates and grades are in dire need at current levels.

DOLLARS: Morgan Dollars remain on the list of the most active series. A mixture of plus and minus signs is once again the current report. Select high grade issues have been offered at a discount. This may be an attempt to turn over some stale inventory or just to raise cash in a hurry. Generic MS63-MS65 Peace and Morgans continue to trade within current Bid and Ask.

PROOF SETS AND MINT SETS: The ever changing market for Proof and Mint Sets is volatile. A truckload of plus signs have once again been dumped on these charts. The majority of Mint Set action is now focused on the later dates 1987 thru 1999. Delivery of Millenium Coin and Currency Sets has revealed yet another Type of Sacagawea Dollar, exhibiting similar surfaces to the Goodacre examples.

COMMEMORATIVES: No real movement to report for Silver or Gold Commemoratives. That's not to say this area is dead...it's far from it. Nearly every Gold Commem grading MS64 and higher is in serious demand. This also holds true for a number of high grade Silver Commems.

TYPE: Strong demand is clearly evident for Circulated and Mint State Type coins. This week's highlights are mostly in lower denominations. Flying Eagle Cents recorded a huge jump in Bid. Copper Nickel Indian Cents, Two Cent Pieces and Shield Nickels with Rays are all higher in MS64.

GOLD: Gold Type is back to suffering after a few weeks of uncertainty. High grade material is experiencing the majority of discounting with this report.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all public transactions and offers to buy and sell coins sight seen. The prices reported for certified coins are certified, but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen by our reporters, these do not represent prices at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight unseen market, which at that point in time may be higher or lower than for a sight unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, and will be missing confirmed buy Bids which are higher or Asks which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions, you should expect to pay a premium above bulk purchasing prices in a retail transaction, you may also commission a Dealer for your purchases.

AN INVITATION TO ALL PROFESSIONAL NUMISMATISTS

California Gold Marketing Group respectfully invites you, as a professional numismatist desiring to become an official member of the *SS Central America* Ingot Marketing Program, to complete and submit the application listed below.

Membership is open to all professional coin dealers, regardless of the size of your business. Requirements are that each authorized *SS Central America* associate be a member in good standing of the American Numismatic Association, and to provide three current numismatic references and one bank reference.

Ingot sales will only be made through this network, and are not planned to be expanded after December 31, 2000.

Official members will have the use of *SS Central America* logos for the duration of our marketing program as well as being featured regularly in our numismatic advertisements.

We are currently planning to release the ingots in 10 phases over 2001 and 2002. Each ingot will have a suggested asking price, which will be published. Associates will then receive a commission, based aggregately upon their total sales over the duration of the program.

Over the span of our sales, interesting highlights from Q. David Bowers new masterpiece book, hundreds of pages illustrated in color, on the California Gold Rush will be serialized in our weekly displays. Each ingot purchased will come with a hand engraved leather bound edition that has authentic *SS Central America* gold dust displayed in the cover! These copies will not be available for purchase–they only are included with ingots. A popular trade edition will be printed also.

We thank you for all of your support and excitement and look forward to this once in a lifetime event.

Sincerely,

Dwight Manley, Larry Goldberg, Ira Goldberg, Q. David Bowers, John Albanese

The Appeal of Gold Ingots

Although gold ingots were once a familiar and necessary part of Gold Rush commerce, virtually all have disappeared in the generations since the 1850s. Indeed, until the discovery of the *S.S. Central America* treasure, no ingots of comparable large size were known to exist anywhere, and even small ingots were considered so rare as to be almost unobtainable. For example, the fabulous gold coin collection of the Smithsonian Institution, the California gold cabinet of the late Henry Clifford, and other specialized collections, had just a few small ingots at best.

Now comes an opportunity unmatched in the history of numismatics. Slightly over 400 ingots from five different assaying firms will be coming to market. Each one is unique as to weight, serial number, the degree of purity, imprint, and in many instances the value at the time (1857) in dollars. Each is of gold from the rivers, hills, and mines of the golden state. The few ingots, no more than several dozen, shown with the "Ship of Gold" exhibit created an absolute sensation—as even numismatists of long standing and great expertise had never seen such things. Never before in American numismatics has such an offer been made. And, when it is concluded, we have no indication that any other treasure ship will ever yield even a single similar ingot! In a phrase, the *opportunity is unique*. —QDB

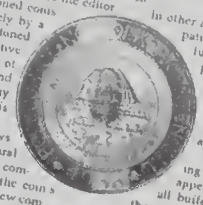
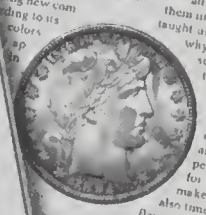
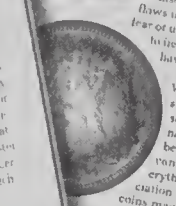
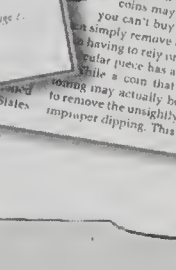
es of Toned Coins

y Mark Salzberg









"Just a quick note to compliment you on the excellent article as submitted to CDN. As a coin dealer I am viewed as a somewhat biased individual when it comes to toning. However, it's different when the head of a grading service shares his views. While most experienced dealers or collectors appreciate the virtues of beautifully toned coins, many novices are stymied by the lack of information available in print. Your article does a service to original coins and to the industry in general.

"Every day at least one customer asks my opinion of the grading services. As you know, I am brutally up-front about everything life throws at us. In short, I rate the grading services on an "A to F scale". I give NGC a Rainbow toned A!

"I consider NGC to be the most accountable grading firm. You stand behind your product, you freely and publicly admit mistakes and you deal with issues that others shun. Simply stated, NGC represents the industry's leading grading service. Just keep an open mind and maintain your vision."

GOLD COMMEMORATIVES CONTINUE TO INCREASE
STACK'S DEC. 6 SALE REALIZES $1.37 MIL

The Market in Depth

Currently, dealers are trying to complete some last minute transactions before the end of the year. Dealers are also trying to prepare next year's budget for attending coin shows and public auctions. They are also concerned about their line of credit and the necessary available funds it takes to buy unexpected deals and/or collections. This is a quickly changing rare coin market. Dealers have to be able to switch gears and offer those coins that are facing strong demand. Those dealers that are able to keep pace will prosper and do well. Those that are not able to offer an inventory that is in demand may suffer.

As we have written for quite some time in 2000, Gold Commemoratives are facing very strong dealer demand. A quick look at this week's Gold Commem chart will confirm the previous statement. Plus signs are dominating nearly every issue from this relatively short numismatic series. Demand is the strongest for coins that properly grade Mint State 64 and better. We do note that there is supporting Bids for MS63 and lesser grades. However, the bulk of the demand is for the higher quality issues. It appears that dealers are quite determined to force these rarities out into the open market. Since their previous increases left them still needing more Commems, the only alternative is to increase Bids once again. It is to be hoped that those individuals sitting on these coins may find the higher levels attractive enough to sell.

Interest is also apparent for Mint State and Proof Type. We see a lot of continued supporting Bids from dealers for this material. Dealers face a significant amount of collector demand for Type. However, they are carefully choosing those coins that have a little extra bit of pizzazz at each grade level. This is what their customer's want. Consequently, it makes for an easy sale when they are able to offer this quality to their customers. Mint State Type is most needed in grades MS63 and better. Proof Type is most salable above Proof 63.

Stack's 65th Anniversary sale of U.S. Gold, Silver and Copper Coins featuring a selection of Gold from the Toledo Museum of Art realized $1.368 million. The December 6 Auction was held in New York.

This Week's Market

MERCURY DIMES: The 1945 Micro-S is higher this week with a new Bid of $500 for those grading MS65 with Full Split Bands. Micro S issues without Full Split Bands are also in need with plenty of buyers in wait.

WALKING LIBERTY HALVES: Light to moderate trading is the current scenario for Walking Liberty Half Dollars. Although no changes in Bid are present, demand remains constant for high grade key dates. Later Dates with a minimum grade of Mint State 60 also continue to be in constant demand at current levels

DOLLARS: Morgan and Peace Dollars are still on the most active list. Several common date Morgan Dollars are higher in MS63. Circulated Peace Dollars are showing nice gains for VG through Fine examples. BU Rolls of Eisenhower Dollars are higher for the last year of issue. Several of these giant clad coins have been inching up in Bid throughout the year.

PROOF SETS AND MINT SETS: The market for Government issue Mint and Proof Sets remains extremely active. Another round of increases is recorded with some increases appearing on top of last weeks jumps. 1997 Mint Sets are now Bid $10 and are needed in quantity.

COMMEMORATIVES: Look out, Gold Commemorative promoters are at it again. Higher Bids are seen for $1 thru $2 1/2 Gold issues grading MS64-MS67. The anticipated results of these new Bid levels is to acquire material. In contrast, classic Silver Commems are suffering from a few scattered minus signs. Modern Commem Sets are a tad weaker for those containing Gold.

TYPE: Capped Bust Half Dollars are increasing in popularity. As with previous weeks, several Dealers continue to pursue these early Half Dollars for their customers. The Reeded Edge examples now have a higher Bid in MS64. Early Circulated Dollars are also experiencing an increase in Bidder activity. Higher Bids are recorded for Flowing Hair and Draped Bust Dollars in Fine thru XF. Proof Type remains in solid demand with Red Indian Head Cents moving higher in PR65.

GOLD: Gold Type has become more attractive to some dealers. New players have recently begun posting Buys on Circulated Gold Type. The increases seen are very slight, but its a start.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen or "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally, that is, the best prices at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already includes some demand and certification costs. Bids for sight-seen coins may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be quick to recognize when Bids are higher or Asks which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions. You should expect to pay a premium above Bid when buying coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example; shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. May exhibit some toning, but it should not be so dark as to hide any problems; will have many bagmarks and may show weakness of strike. Above average [illegible].

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. No major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom-encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: [illegible] characteristics of the corresponding Mint State Morgan, but with the additional features of deep mirror surfaces on both sides.

Please Note: This page [illegible] with Page 18 of [illegible] BU and Proof Sets.

MORGAN DOLLARS AMONG MOST ACTIVE
LAST ISSUE OF THE YEAR

The Market in Depth

This is the last issue for 2000. Your next issue will be dated January 5, 2001. The CDN family of publications wishes all of our subscribers and their families a safe and happy holiday season.

As we round up the year 2000 we can safely say Morgan and Peace Dollars were among the most active areas of the rare coin market. The Morgan Dollar series has always been extremely popular with collectors. An increase in the beginning collector base is one likely reason why this area has been so active. The dealers who specialize in this series have told us throughout the year that many of their customers are actively building and upgrading their Dollar sets. However, others just enjoy owning Brilliant Uncirculated Rolls of Dollars. Collecting BU Rolls is how many returning collectors remember the coin market. These Dollar rolls have been very steady, despite the weakness seen in the Silver bullion spot markets. Investors in Silver bullion believe that it is prudent to have a percentage of their accumulation in pre-1921 Morgans. These large Silver coins carry quite a premium over Silver spot, but buyers are present for these turn of the century numismatic cartwheels. The current Bid of $10.10 for pre-1921 Morgans are for coins that grade VG or better. One dealer is willing to pay $8.75 for pre-1921 Morgans that grade a solid Good condition. At this strong price the dealer is only looking for coins that have full rims.

A Bid of $7 exists for Peace Dollars grading AU. Very Good Peace Dollars are in demand as well. A strong Bid of $6.20 is offered for bag quantities. While the strength of the Silver Dollar market is targeting Circulated coins, the weakness is apparent among common date Uncirculated Dollars. Morgan Dollar common dates continue to experience softness. Mint State 66 examples from the San Francisco and Philadelphia Mint are lower this week. The current Ask of $180 is for coins that are slabbed, white and nice. The MS63 thru MS65 grades are unchanged although still on the soft side with sellers reducing the spreads.

Most dealers will be on the road soon after the holidays. They plan to attend the Florida United Numismatists Convention and Show in Orlando January 4-7, 2001. Dealer set-up is January 3. This bellwether show usually offers insight into the new year's market.

This Week's Market

CENTS THRU HALVES: The BU and Proof Roll market remains active. Several positive adjustments to Bid were made in the last couple weeks. Most of the action is concentrated on Washington Quarters, similar to what we have witnessed for some time. The difference with this report is Bids for early Silver issues have remained steady while the late date clad issues have jumped in Bid. Franklin Half Dollars also show a number of increases in Bid.

MERCURY DIMES: Only a couple changes to report this week for Winged Liberty Dimes. The 1931-S and 1939-S are both slightly higher in MS64 FB. Uncirculated examples continue to carry a minimum $3 Bid and are currently needed.

WALKING LIBERTY HALVES: Life has been given back to Walkers who have experienced light trading recently. Bids have increased for P, D and S issues dated 1935 through 1939. Mint State 63 is the target grade with even more money being offered for blast white examples with eye appeal.

DOLLARS: Both good news and bad news encompasses Morgan Dollars this week. For the good news, Circulated examples grading VG through Fine are higher. As for the Bad news, MS66 common dates are down, now showing a new lower Bid of $165. Here we go again for Eisenhower Dollars, several early dates are in demand at higher levels.

PROOF SETS AND MINT SETS: Not as many plus signs appear this week for Proof Sets as we have seen throughout the year. Except for the occasional "blow out" Ask or the "I need it today" Bid, most issues are trading within current Bid/Ask levels. Much of the same can be said for Mint Sets. A few dates are higher along with active buyers in place for the remainder of dates at Bid.

COMMEMORATIVES: Last weeks barrage of Bid jumps for Gold Commemoratives are still being contemplated by sellers. Buyers are careful not to out Bid themselves by allowing sellers time to digest recent higher Bids. Classic Silver Commemoratives are generally steady.

TYPE: Circulated Type has a few more increases to share. This week the majority of action is in the Good grade column. Large Cents are now higher in Good with a Bid of $9.50 for Braided Hair and $10 for Coronet issues. Other copper issues that are up include Indian Head Cents in Good and Two-Cent pieces in G/VG.

GOLD: Similar to last week, several more increased Bids are present. The amount of interest focused on generic Gold seems to be slowly increasing.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, representing prices dealers would pay and sell for coins in sight-seen, or raw, unsort fresh, but the grading MUST ADHERE to the current leading standard. Prices reported herein are from the highest contract buyer and lowest contract seller. Any dealer in a specific area or specialty may offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which market can differ at times. Thus for a sight-unseen coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the fluctuating circumstances of the open market, but will be promptly followed by Ask levels are higher or Bids which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a substantially higher price when purchasing coins in a retail transaction. You may also contact a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates invested. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls more. Rolls in the Jefferson series, some of the rolls in the late 50's tend to be dark - these bring lower prices. "gem" full steps" rolls (when available) bring higher prices. In the Mercury series, "gem full bands" rolls are worth more than listed prices - particularly the pre-1941 issues. Washington rolls "dull" or "pot together" bring lower prices. "Gem full bands" rolls, particularly the S-mint issues, are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Washington singles are in the COIN
